## THE GERRYMANDER BILL.

At the last session of Congress the bill introduced by McComas, of Maryland, to prevent gerrymandering was reported favorably but did not come to a final vote. This bill proposed to take away from the States the power to shift Congressional districts in accordance with the political views of the dominant party in the Legislature, and to maintain the boundaries when once fixed for a period of at least ten years, to correspond with the apportionment of members of Congress.

The coming session should take this bill up at the earliest moment and carry it through. There needs no other argument but the cowardly and disgraceful conduct of the Ohio Legislature in robbing McKinley of his seat, says the San Francisco Chronicle, to convince any fair-minded man of the absolute necessity for such a law. In his original district McKinley was certain of re-election, and because he was certain, that is, because the people of his district respected, trusted and admired him, and desired him to represent them in Congress, the Democratic Legislature of Ohio changed his district so as to confront him with 9,000 Democratic majority. In spite of these enormous odds he was beaten by only a very small majority, his fight being one of the most gallant ones in the annals of American political history.

## THE NEXT LEGISLATURE.

Suggestions to the Members by the State Press.

Now that the election is over and the next Legislature is overwhelmingly Republican and inasmuch as both parties in their State platforms resolved in favor of the Australian ballot system, it becomes the duty of the coming session to provide for that system of voting in Nevada. In some States, says the Elko Independent, where that system is in operation, it is provided that where a voter makes oath that he is unable, either from physical or illiterate causes, to make out his ticket he can take a man in the booth to make out his ticket for him. In case of physical disability this is, perhaps, all right, as in the case of a man who has lost both hands; but for illiteracy there should be no such provision, as such a proviso would permit the purchase of the illiterate vote, as well as the vote of anyone who, for a few dollars, would make oath that he could not make out his own ticket. The object of the Australian ballot is mainly to prevent vote buying, and the law should be so framed as to accomplish the object sought.

The Statute, when enacted, should provide that after the 1st day of January, 1894, no person who cannot on account of illiteracy, prepare his own ballot, shall be permitted to vote. This would give every man who cannot read ample time to learn enough to read plain print with sufficient accuracy to prepare his ballot so as to vote for the candidates whom he wishes to see elected. All members elected to the Fifteenth session of the Nevada Legislature should now begin to formulate a plan to inaugurate the Australian ballot system of voting in accordance with the wishes of the people of Nevada, regardless of party.

The London Times of Monday last contained a three column article from Bonny relative to the Stanley scandal, in which he substantiates the charges made by Stanley against Bartlett, and pictures some of the horrors which Stanley has hitherto left unpublished. It shows up the inhuman cruelty of Bartlett, whom Bonny thinks was insane. The attempt to blacken the character of the great explorer has reacted upon the men who gave it publicity.

The Democratic tin peddlers who canvassed McKinley's district asking two prices for pots and pans, will have to invent some new dodge for the next campaign. Long before that the old game will be played out and American tin will be competing with the imported article, unless the recent Democratic victory frightens capital and hinders a great industrial development.

The complaints of ill-health made by the Indians of the Wild West show will probably be found as groundless as those made by many deep-water sailors when they come into port. The noble savage is a natural "kicker," and whether on the reservation or at large, never fails to have a grievance.

Two Japanese students at Michigan University have eloped with American girls. It is not quite so bad as Chinese miscegenation, as the Japs have some ideas of progress about them, but those girls will probably soon learn that the yellow and white races have but little in common.

San Francisco Bulletin: The Democrats will hold a funeral service and "hodge of sorrow" at Metropolitan Temple to-night. Bobby Fernal, "Slippery Tom" Clinie, John P. Irish and other mourners will officiate. No flowers.

Governor Hill, as United States Senator from New York to succeed Evans, might be deemed well on the road toward the Presidential nomination by the Democratic Convention of 1892.

Lyon county is all right. Her majority for the Constitutional Convention was 344.

The young King of Spain is weak and not likely to live long.

California is getting very dry on account of the delayed rains.  
Geo. I. Lammon is a candidate for Secretary of the State Senate.  
Louis Cohn went below Monday night on a visit to his relatives.  
Several of the sufferers from the Truckee fire will not rebuild until next Spring.  
Charley McFarlin came in yesterday from Smith's mill and went on to Carson.  
An addition is being built to the rear of the Episcopal Church for a robing room.  
A drunken Italian made considerable disturbance on the Plaza yesterday afternoon.  
Judge Arnold, of Alpine, passed through last night on his way to Placerville to hold Court.  
D. L. Bliss left yesterday morning for Massachusetts where he has two sons attending school.  
The funeral of Katie Laughton will take place this afternoon at 2 o'clock from the Episcopal Church.  
R. W. Lewis, who recently killed a man named Rase at Winnemucca, has escaped from the jail at that place.  
The Carson Tribune says Con Ahern is prominently mentioned for the Sergeant-at-Armship of the next Assembly.  
The funeral of Mrs. Mary F. Roberts took place at 2 o'clock yesterday afternoon from the residence near the Seminary.  
There is a good business chance at Verdi or a first-class doctor. The people there don't like to be dependent upon Reno.  
Go to Lange & Schmitt for heating stoves, cook stoves, ranges and house furnishing goods. Largest variety and best values.  
Eighteen children have been born to Mrs. Jacob Osterling, of Roseland, Ill., during a married life of fourteen years. She is the mother of five pairs of twins and one set of triplets.  
The "Laurel Palace," which the millionaire Baskin built at Belmont, in Santa Clara valley, and which was the scene of so many splendid entertainments, is being converted into a female seminary.  
Carpenters are in demand just now in Truckee. Many persons who were burned out during the recent fire have had lumber or new buildings already brought on the ground and are anxious to build before the stormy weather sets in.  
Virginia Chronicle: Ross Lewers, the chief apple rancher of Washoe valley, was a town yesterday. He says his crop was no better than two years ago, and attributes it to the McKinley tariff bill. Another sign of a hard winter.  
The Fire Commissioners at Truckee are talking of following in Reno's progressive footsteps and prescribing a fire limit, excluding the erection of frame buildings within said limit. It is a good idea and our little neighbor will never regret having taken this precaution against fire.

## Bishop Whitaker Honored.

The Thirtieth Congress of the Episcopal Church of the United States was inaugurated at Philadelphia yesterday morning. Holy Communion was administered and a sermon preached by Bishop Clark, of Rhode Island. The inaugural address was delivered by Bishop Whitaker, who presided. The sessions will begin this evening and last till Friday.

## Painful Accident.

Bishop Scanlan of Salt Lake City met with a painful accident Friday morning, by the upsetting of the mail stage, one mile from Ely, White Pine county, says the Eureka Sentinel. The Bishop had his scalp so severely cut that the doctor had to put five stitches in it. He is now the guest of Mr. Poupade, who is doing everything to make him comfortable.

## BEET SUGAR MAKING.

Crushing Still in Progress at Watsonville—The Sugar Bounty.

The crushing of sugar beets is going on steadily at the Watsonville factory, says the Bulletin. This work began this season September 20th and will continue, according to indications, through the present month. This is the longest season since the "sugar" was started, and the consequent output of sugar will be much greater. When the season opened beets were cut and crushed at the rate of about 300 tons daily, but now it is a poor day when the big machines do not draw in 400 tons. When this quantity of beets goes in fully 44 tons, or over 10 per cent of crude sugar comes out. The calculation is that the season's output of crude sugar will not be far short of 2,500 tons. Last season 2,000 tons were produced, the season before (1898) the first season of the factory, about 1,600 tons. Claus Spreckels was at the factory several days when it opened, and now he takes a run down every little while to see that his pet scheme is working all right. Naturally he is delighted with the bounty system of the McKinley Tariff law and plans to put up at least one more factory next season. Whether the Bounty law will result in higher prices for the farmer for sugar beets produced it is yet too early to say. As it is at present prices ranging from \$4 to \$5 25 per ton, it is a poor crop that will not return the producer from \$75 to \$125 per acre. The Bounty law provides "That on and after July 1, 1891, and until July 1, 1905, there shall be paid from any moneys in the Treasury, not otherwise appropriated, under the provisions of Section 3,639 of the Revised Statutes, to the producer of sugar testing not less than 90° by the polariscope, from beets, sorghum or sugar-cane, grown within the United States, or from maple sap produced in the United States, a bounty of 2 cents per pound; and upon such sugar testing less than 90° by the polariscope, and not less than 80°, a bounty of 1½ cents per pound, under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe."

## CONSUL IN EUROPE.

An Electioneering Card which Hails From Lincoln County.

The following card, a copy of which has come into our hands, says the Austin Revue, is unique in way, poorly printed, badly spelled, with grammatical construction most faulty. But in "modesty" of supplication it atones for these deficiencies. The gentleman whose signature was attached was a late resident of White Pine and is a classical scholar as well as a teacher of most of the modern European languages. English, however, could not have been on his college curriculum:

Dear Sir, Having been honored with the nomination for TREASURER for next term in Lincoln County on the Republican Ticket, I herewith most humbly solicit Your vote and support for my election. At the expiration of this term of the above mentioned office I have reason to hope to be appointed United States Consul in Europe, which position will enable me to draw immigrants attention to the high-producing farming-lands and valuable minerals in Nevada, and thus essentially assist to a rapid increase of the population in this State. It would be necessary for the Consul appointment to have held an office of trust.

Otto Stein.  
Fioche 15 October 1890.

## The Amold Concert Company.

The above company appeared in our city before a large audience. The company is composed of artists of more than the average merit. Herr Amold, with his skillful manipulation of the bow, won universal applause from the audience, and we can safely pronounce him one of the best artists of the new school. —Chicago Tribune, 1890. The ears of a generous representation of the elite of the city were charmed to a trance last evening by the Amold Concert Company at the Ford music rooms. The apartment was packed and an intense interest and grateful applause was manifest of the high appreciation in which the members of the company were held. \* \* Herr Amold, as St. Paul music devotees have learned to expect, was his usual self, stirring the grander emotions of his audience as one soul under the influence of the mesmeric strain. To hear Herr Amold at his best, when inspiration thrilled his every move, and the soft, sweet notes floated from his instrument in unconscious accord with the exultant's thought, is to lose one's self to all things earthly and live, if but for a moment, in the imagery of the most beatific. In the programme he was announced to appear but twice. When he presented his first "Nocturne" (Chopin) he had delivered but a prelude to the enthusiastic demands of those present. Responding to an encore he was again encored, and would have been responding to encore to this moment but he was compelled to desist from sheer weariness. Reason and satisfaction were the only considerations which allowed him to retire. —St. Paul Globe, October 1, 1890.

This company will appear at McKinnick's Opera House, Friday, November 14th. Reserved seats for sale at Hodgkinson's drug store.

## Specimen Free-Trade "Education."

In his speech, October 18, Major McKinley paid his respects to Mr. Turner, of Kentucky. He said:

"I have seen in circulation a little card printed on two sides, giving the speech of Mr. Turner, of Kentucky, expressing the deplorable condition of the farmer under the new tariff that went into effect on October 6th, of this year. I was in Congress when Mr. Turner made that speech and it was just ten years ago last Winter. [Laughter and applause] And not only was that speech made ten years ago in the House of Representatives, but it is an exact copy of the speech made by Marshall, of Illinois, forty years before that time." [Laughter and applause.]

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb 21-sw-ly

## THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$200,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

The history of the past has proven beyond a question that an endowment policy in a life insurance company is a much

## BETTER INVESTMENT

Than a savings bank; FIRST, because it is very much safer—as the law of the State of New York required every life insurance company to keep a

## Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar; SECOND, in case of death while making these small deposits, the life insurance company will pay, just when most needed by the family, the

## Full Amount

Of the sum insured, amounting to 10, 20, or even 50 times as much as has been deposited; or on the

## Return Premium

Plan of the MANHATTAN, they would do even more than this, for they would at death pay the face of the policy and in addition all the deposits (premiums) paid, while the savings bank would only return the amounts actually deposited with interest.

Who would not purchase a valuable piece of property—a farm for example—worth \$10,000, if he could have twenty years to pay for it, in small sums of \$300 per annum with interest on deferred payments and without any tax on it? The \$300 per year being only 3 per cent of the \$10,000—a sum not much greater than that paid annually for taxes on property in hand, of the same cost, and especially if he could have the further conditions specially stated in the contract, 1st, that if he dies while making these payments—even after one only has been made—
